## **OFA calls on government to suspend wind turbine development in Ontario**

**Guelph, ON [January 20, 2012]** – Escalating concerns about industrial wind turbines have prompted the Ontario Federation of Agriculture (OFA) to urge the province of Ontario to suspend further development until farm families and rural residents are assured that their interests are adequately protected. The OFA unveiled its strong stance in a new position statement on industrial wind turbines, released today, that will be presented to government later this month.

Since 2007, when the development of industrial wind turbines began in Ontario, the OFA has worked with government on regulations, cautioned farmer members on the pitfalls of wind leases and expressed concerns about pricing. Many of these issues have not been addressed, causing tremendous tension among rural residents and community neighbours.

“We are hearing very clearly from our members that the wind turbine situation is coming to a head – seriously dividing rural communities and even jeopardizing farm succession planning,” says OFA President Mark Wales. “The onus is on our provincial government to ensure the interests of rural Ontarians are protected. OFA is speaking up to clearly outline the issues that must be addressed right now.”

The OFA’s new position statement on industrial wind turbine development addresses a number of concerns of rural Ontarians, including:

- Price paid for wind power
- Inefficiency of wind power – it can’t be stored for use during peak demand periods
- Setback issues and induced currents
- Health and nuisance issues
- Removal of municipal input from industrial wind turbine projects

OFA has always supported Ontario’s need for a reliable, affordable source of renewable energy for our future. “We must all work together to ensure green energy projects respect concerns for noise, community involvement and price, balanced with the effective provision of energy,” says Wales.

The Ontario Federation of Agriculture (OFA) is the largest general farm organization in Ontario, representing 37,000 farm families across the province. As a dynamic farmer-led organization based in Guelph, the OFA works to represent and champion the interests of Ontario farmers through government relations, farm policy recommendations, lobby efforts, community representation, media relations and more. OFA is the leading advocate for Ontario’s farmers and is Ontario’s voice of the farmer.
